Virgil's Special Edition Bavarian Nutmeg Root Beer

WEDNESDAY, MARCH 25, 2009 AT 3:17PM

This is it... this is the current Holy Grail of Root Beer for me. This is... Virgil's Special Edition Bavarian Nutmeg Root Beer. This cost me \$4.25 a bottle online to buy... but it had to be done.

The flavor does not disappoint. It's got the greatness of Virgil's Root Beer, with a kick of nutmeg in it. You know how some things say "Now with *ingredient*" but you can't taste it? You can most definitely taste the nutmeg in this.

Another high point is the fact that the water used in this is from a well in Bavaria, considered one of the most pure sources of water in the world... that's freaking cool in my opinion. Put all of this together in the best bottle I've ever seen anything in, and you have a winning combination.

I'm going to have to agree with Mike on this one though.

Verdict: Buy stock in the company!

~A

I've never officially reviewed Virgil's Root Beer, pretty much because one of us would take care of one beverage at a time, however, being that it's a new year of The Soda Jerks, this will be our first beverage that we both review.

First of all the bottle. I mean, look at it. This is obviously the real deal here. Can you believe I'm going to give points to a drink for being "fun to open?"

Secondly, the water. This soda is made with water from a well in Bavaria. Wow. I mean, really? Talk about fancy.

Whatever is in the water it's got a very crisp taste, just like the original. I'd say the key difference between this and the original is the nutmeg. It kind of brings out the vanilla flavor most of all.

The other difference is the price. It's about \$5 a bottle. A bottle. As noted we're moving on to store brand and discount sodas.

I'm scoring this the same as the original because the price balances out the slight advantages it has over the original.

Verdict: Buy stock in the company!

-Mike
